Dear Ken,

I just wanted to take the time to thank you for all your support before, during and after our conversion. Both you and your office staff are incredibly patient knowledgeable people.

Your thought process for our small but specialized industry is unwavering as we all move further into the computer age.

We look forward to the software projects that you are working on to ease the transition to consolidate and expedite the inner workings of portable x-ray companies at the same time reducing our costs.

If you ever need a recommendation or assistance please do not hesitate to call upon us to assist.

Sincerely,

Bruce Cotti RT(R)ARRT
