

Ken Trotman
CEO
Radical Radiology
524 Huffman Road
Birmingham, AL 35215

May 24, 2011

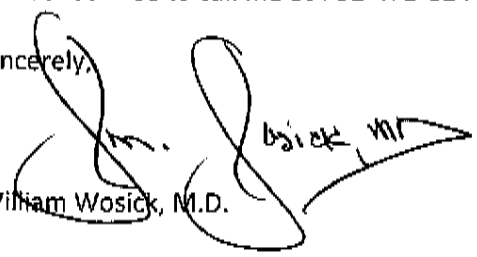

To whom it may concern:

Seven years ago I started working with Radical Radiology who installed and continues to support my Ramsoft PACS. The integrity of Radical Radiology has been established without question. Within the realm of PACS support and workflow integration I know of no other company that surpasses Radical Radiology. I think within our industry they have no peers.

I read for several facilities and Ken has worked very closely with me to configure Ramsoft to handle my workflow, with a particular emphasis on the hanging protocol for mammography, so that I can read as efficiently with the PACS as I did with film. Support is always close at hand and basically Radical Radiology does everything they say will do. In a profession like ours, this is huge.

Please feel free to call me at 701-478-0244 if you would like to discuss in greater detail.

Sincerely,

William Wosick, M.D.
