Mr. Ken Trotman
Radical Radiology
524 Huffman Road
Suite C
Birmingham, AL 35215

Ken,

I am pleased to share my experience with Radical Radiology with your prospective customers.

Through our network of imaging facilities, Imaging Solutions provides unique imaging and business solutions for medical institutions and professionals at multiple imaging facilities throughout North Dakota and Nebraska. We use Ramsoft PACS as our image management platform for multiple modalities including CR, CT, MRI, Ultrasound and Mammography.

Radical Radiology installed our first facility in 2004 and they now support all six of our locations with an outstanding level of service. We perform over 40,000 studies a year and Ken Trotman and staff have helped us solve a variety of problems over the years ranging from DICOM issues with equipment manufacturers, network connectivity, hardware malfunctions, and remote user training and support. Ken does a great job of troubleshooting and fixing problems. He doesn't point fingers and works closely with other vendors to solve our problems quickly. It has been a pleasure to work with Radical Radiology and I recommend them highly.

Please contact me at 701-799-8825 if you would like to discuss Radical Radiology in more detail.

Sincerely,

A handwritten signature in cursive script that reads 'Patrick Krueger'.
